

# C-130 ANTI-ICE VALVE

# Honeywell

AUTHORIZED HONEYWELL DISTRIBUTOR  
& AUTHORIZED REPAIR CENTER  
CAGE CODE: 4GPC1

## PART NUMBER 3290290-2-3 PROVEN DESIGN INCREASING RELIABILITY

With over 20 years of safe, high-reliability performance, Honeywell's one-piece anti-ice valve is a drop-in upgrade that addresses safety of flight concerns with increased reliability and no aircraft modification necessary.

## MANDATORY REPLACEMENT

USAF released an Urgent Action TCTO (Nov. 1992) to incorporate Honeywell valve at all four wing locations; valve can also be replaced at two locations in the empennage for commonality.

## FEATURES & BENEFITS

- Increased reliability
- Drop-in replacement—no aircraft modification
- Qualified and approved by the USAF
- Eliminates safety of flight risks
- Adapted from proven commercial valve design

## TECHNICAL ADVANTAGES

- One-piece flow body eliminates the possibility of valve body separation
- Butterfly valve incorporates piston rings for better sealing and valve action
