

C-130 STAINLESS STEEL HEAT EXCHANGER

Honeywell

AUTHORIZED HONEYWELL DISTRIBUTOR
& AUTHORIZED REPAIR CENTER
CAGE CODE: 4GPC1

FLIGHT DECK: L8743039-1 / CARGO DECK: L8742997-1 STAINLESS STEEL HEAT EXCHANGER REPLACEMENTS

High reliability, rugged construction heat exchangers. Honeywell's stainless steel heat exchanger upgrades for the C-130 Cargo Deck and Flight Deck offer significant reliability improvements over the current aluminum heat exchangers pre-1974.

FEATURES & BENEFITS

- Rugged stainless steel construction—improved heat transfer
- Significantly increased strength and corrosion resistance
- Less susceptible to leaks due to corrosion, dents and scratches
- Increased reliability—twice the service life over aluminum heat exchangers
- Increased durability at higher, sustained operating temperatures
- Drop-in replacement for aluminum model heat exchangers—no aircraft modifications required

TWICE THE SERVICE LIFE OVER ALUMINUM HEAT EXCHANGERS
