

A close-up photograph of a dark grey aircraft engine component, showing various bolts, a shaft, and a flange. The image is partially obscured by a blue horizontal bar at the top and bottom.

WORLDWIDE AUTHORIZED REPAIR CENTER

BATTLEFIELD PROVEN TECHNOLOGY

S3 AeroDefense is proud to offer select spares, upgrade exchanges, and a full range of repair services for CEF C-130 components and sub-assemblies. As a globally recognized manufacturer, CEF has over 65 years of experience designing and manufacturing a range of high quality mechanical and electromechanical components. Through our strategic partnership, S3 AeroDefense provides quick TAT's, competitive pricing, OEM quality, and customized exchange and rotable programs to meet each operator's unique requirements.

BALL SCREW ASSEMBLY EXCHANGE PROGRAM

Ask us about exchanging your non-CEF repaired ball screw or Beaver Ball Screw for a brand new unit. Rotable pool options also available.

IN-HOUSE MAINTENANCE, REPAIR & OVERHAUL

S3 AeroDefense's in-house repair station offers full MRO services for CEF's product lines; including, but not limited to ball screws, flap screws, gearboxes, trim tab actuators, and lighting.
