

UNINTERRUPTIBLE POWER SUPPLY (UPS) MODULE BY CHAMPION AEROSPACE

Champion's UPS provides bridge power to mission equipment during AC bus transfers, low voltage sags, and other AC/DC interruptions.

Champion Aerospace Model 28VUPS29FSPD is an uninterruptible power supply with an integrated transient voltage surge suppression (Surge Protection Device or SPD) circuit specifically designed for airborne applications.

QUALIFIED & APPROVED

Designed to meet MIL-STD-704 (A-F) for Aircraft Electrical Power

ENSURES OPERATOR SAFETY

Provides transient voltage surge suppression during harmful high voltage transients to prevent catastrophic system failures

VERSATILE

This UPS device is compatible with all power converters and plays a vital role in preserving the life of utilization equipment

RELIABLE

Allows utilization equipment to maintain full operational capability and "ride through" during AC bus transfers, low voltage sags, and other AC/DC interruptions
