

# ENGINE DRIVEN PUMP BY EATON

The Eaton EDP adds significant responsiveness margin in the low-speed, high angle of attack phase.

## NEW DESIGN

Thinner and smaller, eliminating the need to remove the Independent Drive Generator (IDG) lines for install, saving on maintenance time and cost. Same test bench as OEM.

## HIGH-PERFORMING

Lower heat generation and enhanced reliability

## WEIGHT REDUCTION

Thinner and smaller EDP means weight reduction and lower heat generation

## DROP-IN REPLACEMENT

Fully interchangeable.  
Remove and replace at flightline.

## REDUCED MTBF

Reliability assessment exceeds 4,300 flight hours
