

# FIN & PLATE OIL COOLER BY HONEYWELL AEROSPACE

Increased strength and durability of Honeywell's fin & plate oil cooler ensures reduced maintenance and life cycle costs.

## BUILT TO LAST

Outstanding metal bonding qualities ensure strongest joint possible, reducing maintenance costs.

## IMPROVED DESIGN

Bar, Plate and Fin construction provides greater structural strength and leak protection over mechanically swaged tubular oil cooler configuration

## DROP-IN REPLACEMENT

No aircraft modifications required

## QUALIFIED & APPROVED

by the US Air Force.
