

# GRIMES LIGHTING BY HONEYWELL AEROSPACE

For more than 85 years, Honeywell has led the aircraft lighting industry by driving new performance and reliability standards.

Grimes Lighting by Honeywell Aerospace are renowned for safety, low upkeep, and low operational costs, along with weight reduction, increased light intensity and modular designs with sub-assembly parts.

## EASY UPGRADES

No need to modify the aircraft when upgrading the lighting, and the upgraded lighting can deliver high-quality performance for up to 50,000 hours.

## QUALIFIED & APPROVED

Safety regulation compliant, undergoing rigorous testing to ensure advertised performance.

## ENERGY EFFICIENT

Reduces power requirements by 50% while improving performance of legacy lighting.

## REDUCED WEIGHT

Same interface means a simple installation that is a drop-in replacement without needing a new GCU wiring harness.
